List of Abbreviations and Definitions

FAST ACT	Fixing America's Surface Transportation Act
FHWA	Federal Highway Administration
FTA	Federal Transit Administration
MPO	Metropolitan Planning Organization
MPMS	Multi-modal Project Management System
NHS	National Highway System
One Map	PennDOT Public Mapping Application
PennDOT	Pennsylvania Department of Transportation
SPC	Southwestern Pennsylvania Commission
TIP	Transportation Improvement Program

Project Funding Codes

APD, APL	Appalachian Regional Commission
BOF	Bridge - Off System
BOO, BON,	Old Federal Bridge Funds
BRIP	Federal Bridge Funds
BUILD	Better Utilizing Investments to Leverage Development
CAQ	Congestion Mitigation and Air Quality
HSIP	Highway Safety Improvement Program
NHPP	National Highway Performance Program
RRX	Surface Transportation - RRX Elimination of Crossing
SXF	Surface Transportation - Special Project - Federal
STP, STN, STR	Earmark Surface Transportation - Any Area in State
STU	Surface Transportation - Urban
TAP, TAU	Transportation Alternatives Program

Project Phase Abbreviations

CON	Construction
FD	Final Design
PE	Preliminary Engineering
ROW	Right of Way
UTL	Utilities

Annual Listing of Projects with Federal Funding Obligated: Federal Fiscal Year 2022

The Infrastructure Investment and Jobs Act (IIJA), aka Bipartisan Infrastructure Law (BIL), was signed into law by President Biden on November 15, 2021. The law authorizes \$1.2 trillion for transportation and infrastructure spending with \$550 billion of that figure going toward “new” investments and programs. Per 23 CFR § 450.334 of the Code of Federal Regulations, States and Metropolitan Planning Organizations (such as the SPC) must publish annual lists of projects where federal funds were obligated. Specifically, states and MPOs must produce:

“a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds...were obligated in the preceding program year. The listing shall...include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information...and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.”¹

An obligation is the Federal government’s legal commitment to pay the Federal share of a project’s cost. An obligated project is one that has been authorized by the federal agency and for which funds have been committed. Projects for which funds have been obligated are not necessarily initiated or completed in the program year, and the amount of the obligation will not necessarily equal the total cost of the project. For Federal Transit Administration (FTA) projects, obligation occurs when the FTA grant is awarded. For Federal Highway Administration (FHWA) projects, obligation occurs when a project agreement is executed and the State/grantee requests that the funds be obligated.

The Infrastructure Investment and Jobs Act also dictates that government spending on transportation should be more transparent to State and Local Officials, as well as to the public. As such, the obligated list of projects must be developed through the cooperative efforts of the state, the metropolitan planning organization (MPO) and the public transportation operators who are responsible for tracking project authorizations and obligations spend during the immediately preceding fiscal year.

To address these requirements, this report lists all FHWA transportation projects in the SPC region that were obligated during Federal Fiscal Year 2022 (October 1, 2021 - September 30, 2022). **For transit project obligations please see the *Listing of Transit Project Obligations FFY 2022 Document*.** For more information regarding projects listed in this document, please use the MPMS numbers and project descriptions provided below to look up projects on the [PennDOT One Map application](#) or the [SPC TIP Web Map](#).

For more information, please contact Greg Shermeto at gshermeto@spcregion.org.

1. 23 CFR § 450.334

Southwestern Pennsylvania Commission

Regional Summary of Federally Obligated Funds for Federal Fiscal Year 2022

The table on the following page breaks down projects in SPC's region which were federally obligated in FFY 2022 by federal funding class. The total federal funding obligated to projects during FFY 2022 was \$389,280,080, which was over \$91,000,000 more than the total obligated in FFY 2021. This is largely in part to the passing of the IIJA bill and the appropriations of new Federal funding in the Spring, which is represented largely in the new BRIP funding, which obligated just under \$55,000,000 in the fiscal year. There was \$20,898,916 in savings from previously completed projects, approximately \$5,000,000 lower than in FFY 2021, which was deobligated from completed projects and obligated to other projects.

The majority of obligated funds were for highway/bridge projects (44.9%). The most significant project obligated \$27,011,619 to fund Boulevard of Allies Ramps, a bridge preservation project on several ramps on PA 885 & SR 8004 over I-376 in the City of Pittsburgh, Allegheny County, which made up 7% of the total obligated funds in FFY 2022.

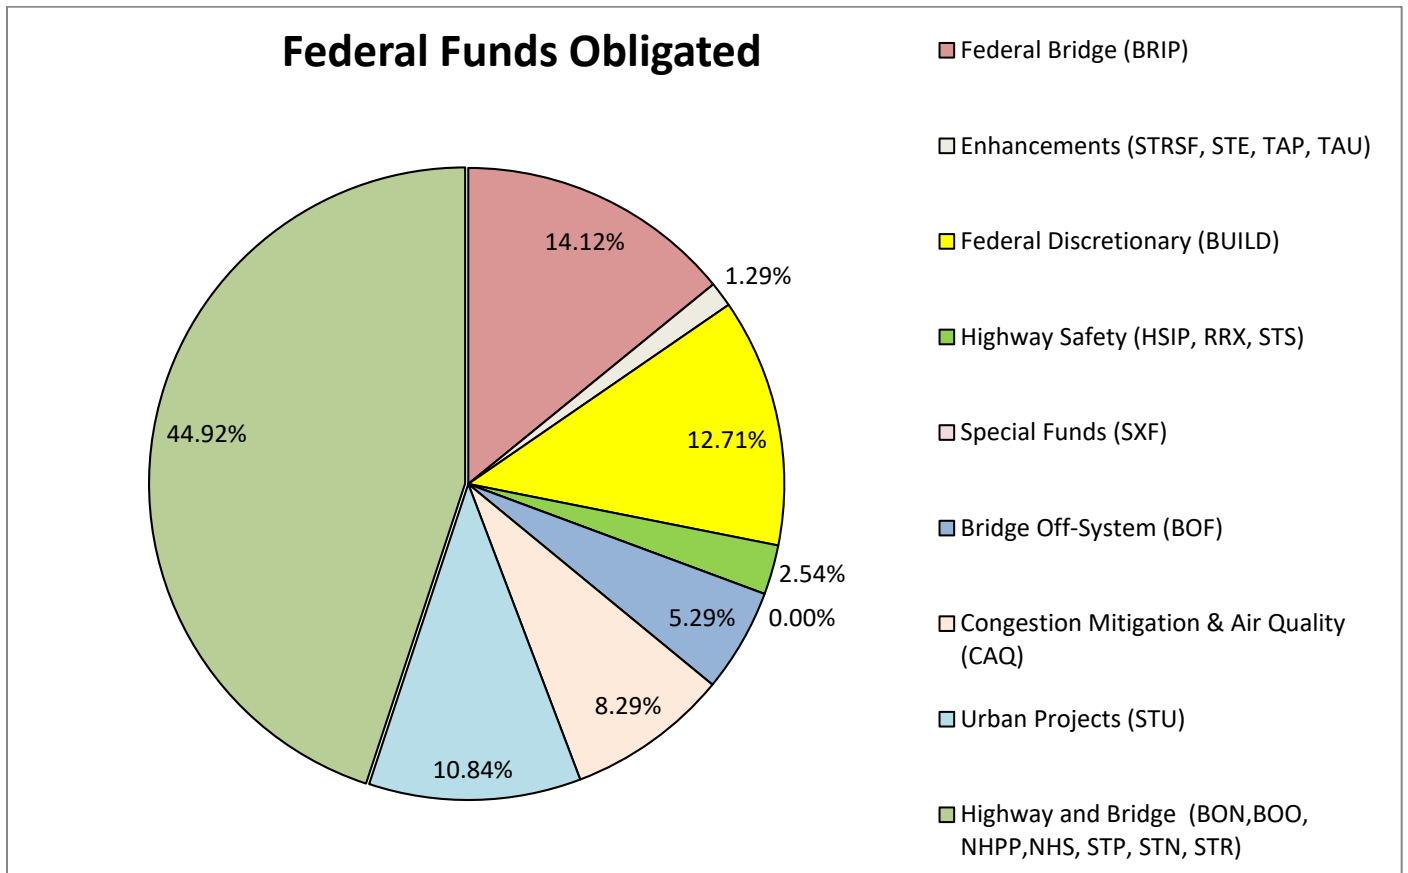

Other significant projects that obligated funds in FFY 2022 included the Forbes Avenue over Fern Hollow bridge replacement in the City of Pittsburgh, Allegheny County (\$22,614,941), the Three Degree Road Intersection resurfacing and safety improvement on PA 228 from 500 feet east of SR 3015 to 1.0 mile east of SR 3007 in Adams Township, Butler County (\$13,475,000), a bridge replacement project on PA 21 over PA 166 in German Township, Fayette County (\$9,285,773), and a bridge rehabilitation project on US 422 eastbound and westbound over Two Lick Creek in White Township, Indiana County (\$9,000,000).

There was a significant increase of projects obligating congestion management and air quality in FY 2022 with \$32,257,750 in obligated funds, \$22,440,000 more than the CAQ funds obligated during FY 2021. The CAQ funds for FY 2022 include projects for signal replacements and congestion reduction along PA 68 from T-425 (Stevenson Road) to SR 3007 (Meridian Road/Benbrook Road) in Connoquenessing and Butler Townships, Butler County (\$8,142,411), as well as Signal replacement on 8 intersections within Central Business District in the City of Pittsburgh, Allegheny County (\$4,427,316) and for signal upgrades in various locations across Fayette County (\$2,288,051).

Complete funding amounts are provided in the table, and the funding distribution of obligated funds is illustrated in the pie chart. A comprehensive summary report of individual projects and obligation/deobligation amounts is included beginning on the fifth page.

TIP Projects Obligated in FY 2022

Federal Funding Class	Obligated	%	Deobligated	%
Federal Bridge (BRIP)	\$54,957,541	14.12%	\$0	0.00%
Enhancements (STRSF, STE, TAP, TAU)	\$5,014,540	1.29%	-\$238,898	1.14%
